# Live your Roof-moments to the fullest

**Outdoor is where I thrive,  
it's where I choose to live my life.  
This is my story. I am Roof.**

This story is about me-time. Yours.  
It holds a promise of style, of comfort, beauty, freedom.  
And it ends with... well, it never really ends.

Get ready to sit, chill and enjoy outdoor life on your own  
terms: imagine an award-winning design that will have  
you longing to lounge when and where you choose to.

It's strong, it's soft, it's loose, it's firm.  
It's made in Belgium.

[www.elmina.sk](http://www.elmina.sk)

**ROOLF-LIVING**  
**Designed by Christophe Harinck**

As a designer, I am in awe of objects that bring a certain peace of mind. Simple, yet powerful. Designs that go one step beyond beauty and function and aim to conquer hearts and minds. Why not create a sense of joy, of longing? Those are the designs that I aim for.

Having spent two decades refining my craft, I am now proud of having taken it a step further. The Roolf Living indoor/outdoor collection of rugs and furniture adds a typical Bo-Ho feel to high-quality, budget-friendly and eye-catching design meant to deliver instant happiness. Take your time. Own it. It's yours.

**“Roof-Living brings an elegant and playful touch to your space. We design and produce products with a colorful, unique and sustainable texture to spice up your outdoor and indoor life. Our products are your ticket to living your Roof moments: they invite you to chill and socialize, where and how you want.”**

# Outdoor Indoor

# Indoor Outdoor

## reasons why

This outdoor rug & furniture collection is made of our typical Roolf textile with its unique look, its funky feel and its distinctive technical assets. Want some good reasons why you're about to make a smart choice?

reddot award 2018  
winner

020

## 1. strong

Roof outdoor furniture and fabrics are made of 100% polyprop. They are meant to withstand the forces of nature.

## 2. comfortable

You need to relax? Here's your answer: the Dotty Pouf, the Love Seat, the Sunbed... they have all been designed with your comfort in mind. Firm? Yes. But no hard edges, no steel frames. Only loads of softness. Let it go...

## 3. easy cleaning

Outdoor lounge furniture is meant for chilling, not for hours of cleaning. The fabrics we use help you get your priorities straight. Enjoy!

## 4. outdoor = indoor

The Roof rugs, chairs, seats... are equally perfect for indoor use. Imagine them in your living room, by the fireplace, in the kids' corner... Choose freely.

## 5. budget-friendly

We want to make sure everybody can enjoy the pleasure of outdoor lounging. So we've made this collection very affordable. (The look of exclusivity is a free gift from us to you.)

## 6. unique texture

Whichever colour you choose - and we have many - each of them is made up of at least 3 different shades. Looking at your Roof lounge set never gets boring, we've made sure of that.

## 7. dry quick

All Roof fabrics are permeable, which means rain or dewdrops pass right through. No puddles. No algae. No moss. Dry pants.

## 8. buddies with the sun

Each and every item in the Roof collection has been UV-treated, which means all those beautiful colours will keep their wonderful appearance. Let the sun shine, ladies and gentlemen. (And in case you want extra protection, we've got it covered: just ask for our handy **UV-protector spray**.)

## 9. lightweight

Had enough sun? Want to move to the shade, or vice versa? Just pick up your lounge set and go sit where you want to. There's nothing to it.

## 10. happy floater

Yes, the Dotty Pouf even floats. There's a bit of magic to it. Just say abracadabra and go sit on water.

## 11. too stiff or not too stiff

Do I feel too stiff? Solved in a jiffy! Just take out one or more of the high-quality UPS-granulate pads we've put in for that very reason: you're the boss when it comes to deciding how your pouf should feel. Don't throw the pads away, though. That way, you can put them back whenever you wish. (And you can always buy a refill pack.)

## 12. safety zipper

Don't want your kids or pets to accidentally open your pouf? That makes two of us. So we've made sure to equip them with a safety zipper. Impossible to open without a funky little keychain we're happy to provide you with.

## 13. be your own architect

Release your inner artist and arrange your outdoor lounge furniture any way you want. All models are totally modular (what's in a word?) So go ahead and combine them to your heart's content.

## 14. urban space

We don't all have a spacious garden to enjoy those happy Roof-moments in. And that's just fine. If you're the proud owner of a cosy patio or a wooden deck, know that Roof is the perfect fit for you as well. We wouldn't have it any other way.

## 15. looks matter

Outdoor living is our kind of living. To us, it means letting things go. Take a seat, see what happens. The look of our lounge range reflects just that. Some call it vintage. Others call it bohemian. We call it cool. Your rugs, chairs, seats, sunbeds... all come in many colours and in many shapes. Together, they form your own world of lounge. Prepare for a unique look with many feels and embrace that special state of mind: chillax.

## 16. made in belgium

Flemish textile is world-renowned. This is a label we carry with pride.

## 17. red dot design award

This we also carry with pride: the Dotty Pouf has won the prestigious Red Dot Design Award 2018 for its original design. ([www.red-dot.org](http://www.red-dot.org))

## Hot Dotty

Hot Dotty provides the ultimate heat experience to prolonge your outdoor living. The built-in rechargeable heater gives you a comfortable and warm feeling. Our Hot Dotty immediately warms up the essential organs that are located in this part of the body which induces an intense feeling of warmth.

Soon all patio heaters will be banned, that's why we're offering an alternative solution.

Not only an ecological impact but also an economic one. We calculated that a catering business could save up to 80% energy by using heated seats instead of patio heaters.

# Rooftop Black Edition

One of the challenges of the modern world is the careful use of natural resources. The Rooftop Black Edition meets this social requirement to a particularly high degree.

Our luminaires are made of BIO-polyethylene. BIO-polyethylene is a natural product and is made from sugar cane.

By manufacturing our products from renewable raw materials, we not only conserve the finite resources of our planet, we also actively contribute to the reduction of greenhouse gases.

As the sugar cane grows, the plant binds CO<sub>2</sub> from the air. After the sugar cane is harvested, alcohol is formed through fermentation (as in the production of wine), from which polyethylene is then obtained.

No petroleum, no fracking, 100% Rooftop Black Edition. In this collection we have BE small lamp 60 - BE high lamp 160 - BE ice bucket sitter - BE coffee table

# Dotty Protector

## Wintering outside?

The Dotty furniture from Roolf Living is made of 100% polyprop and is perfect for outdoor use.

If you not only want to keep your garden furniture clean but also extend its lifespan, use our Dotty protector. It offers simple but effective protection against wind and weather so that your garden furniture continues to shine year after year. You can use it for overwintering, but comes also in handy during our changeable in-between seasons.

A protective cover... so many advantages

- Extends the service life
- Protects against weather conditions
- Protects against dirt & moisture
- Protects against Mold & fungus

The protectors are available for these Dotty models:

- Small
- Medium
- Club Corner medium
- Extra Large
- Club Corner XL
- Long Chair
- Love Seat

A good protective cover should protect but at the same time prevent suffocation, otherwise your furniture will go mouldy. The protector has a water-repellent outer layer and a breathable inner layer.

The protective cover is custom-made and completely encloses your dottys. It can be closed with simple velcro fasteners and a zip at the back. The grip at the top makes lifting very easy.

collec

**Our desire to strive for the ideal world, is a never ending story. We continue to search for more, for better, to bring you the best... because you deserve it!**

With the Silky collection, in addition to the goals already achieved, we have focused on softness. Our search has brought us to the "chenille" yarn. This type of yarn owes its name to its shape. It takes the shape of caterpillars such as the Pine processionary. Chenille is the French name for caterpillar.

Many months it took us to develop the perfect indoor/outdoor chenille with success.

To highlight this noble yarn even more, we have also chosen to finish the seats with a sophisticated edging.

Come with us and enjoy this journey through our catalog that takes us from our home over the mountains to sunny beaches. My home is where my Roolf-Living is.

# tion

1 the  
1. corner  
seat

Are you a person who likes to cocoon, who likes to gather people around the table? We have thought about you by implementing the corner seats into the Silky collection. The **corner seat** can give your setting a real extra added value. The possibilities and **configurations** are becoming infinite with the corner seat. By adding some of the corner seats to your single seats, you instantly create an overwhelming setting where everyone can be welcome. Discuss the possibilities with your distributor. You will be amazed at the outcomes.

Longing for that moment of me-time, reading a book, enjoying the sunset with a glass of wine... take a seat in your **club seat**. Relax, take a deep breath, close your eyes and feel the comfort of the club seat. The **high quality eps granulate filling** will take your form which will give you an endless feeling of comfort. Thanks to the **light weight** of our furniture, you can easily take your club seat to that place where you want to enjoy it, whether it is outdoor or indoor. Our looks match in any place. Based upon the advice of some of the most important design and colour trendwatchers of today, we have selected our colours with precision and devotion, so that everyone can appropriate his own club seat.

Life is what you make of it! With Roolf-Living, we would like to help you making the best of it. We need to cherish those memorable moments and these moments are most of the time a cocktail of family, friends, good times... at the right place. We at Roolf-Living, hope we can trigger these moments by offering you a beautiful setting with our Silky collection. Take a seat in our **soft single seats** and make a warm nest with your beloved ones. The **comfort** of the Silky collection will make you spend hours enjoying your garden, terrace, balcony... for anyone, anywhere around the world. The velvet look of our **indoor/outdoor** fabrics gives an extra added value to your place. It's not only a joy of comfort, it's a caress for the eye as well.

Sea, sun and... our Silky **long chair**. Enjoy a day of sun ! We especially have developed the Silky collection to be large enough so you can wriggle yourself in any position you want without having the feeling you are limited because of your long chair. Nothing more annoying than to have the feeling that your long chair is too narrow or too short. Everyone enjoys a kingsize bed, so why not enjoying a king size long chair. And what about style, we do feel that the long chair has to be a part of the **total concept**. The **detailed finishing** of all of our models do make this collection a total concept where it is perfectly possible to **create your own configuration**... including the long chair.
